

# LADISLAV TOPOL'SKÝ

## ABOUT

I am currently working as a Solution Lead in Adecco. Where I am developing and maintaining applications using MS Power Apps. In this role, I have learned a lot about communication with customers and providing them with a good roadmap to a successful finish for a project and support for ongoing projects. In my previous work experience as a software engineer, I learned a lot about software design and architecture. I have gained a better understanding between frontend and backend connection. I have a basic understanding of UX/UI design. In my role as HTML/CSS developer, I have worked with the headless CMS framework JellyPot where I have learned to build responsive webpages.
